SUMMARY

Results-driven and adaptable Software Engineer fresher with a strong foundation in full-stack development, REST APIs, and OOP principles. Hands-on experience with ServiceNow ITSM, application development, and SDLC practices through academic projects and internships. Proficient in Java, Python, and web technologies, with a passion for building scalable solutions. Eager to contribute to Agile teams and deliver impactful software products.

EXPERIENCE

ServiceNow Intern

May 2025 – Present

Technical Hub

- Configured ServiceNow ITSM modules (Incident, Problem, Change, Service Catalog) using Agile workflows, reducing manual ticket resolution effort by streamlining service management processes.
- Developed application components in ServiceNow Studio including tables, forms, client scripts, and REST API integrations, improving overall system functionality.

Software Intern

Dec 2023 – Mar 2024

Tecnicis

- Developed and tested software modules using Java and Python, gaining hands-on experience with Git version control and Agile development practices.
- Collaborated with the team to debug and optimize existing codebases, strengthening core OOP and problem-solving skills.

PROJECTS

Mediverse – Hospital Management System | ServiceNow, REST API, Agile

Aug 2025

- Designed and developed a full-stack hospital management application on ServiceNow, managing patient appointments, doctor dashboards, and room/food bookings for 3+ modules.
- Automated ITSM workflows using business rules and script includes, reducing manual coordination effort between patients, doctors, and hospital staff.
- Implemented REST API integrations to enable real-time data exchange between modules, improving system responsiveness.

Exam Portal | Express.js, HTML, CSS, JavaScript, MongoDB, Jenkins, Docker, AWS EC2 | Project Link

Apr 2026

- Built a role-based exam portal with **Student/Admin** login; students submit roll no, branch, and semester, and admins filter students semester-wise.
- Implemented a **grid seating arrangement** generator that avoids placing **same-branch students as adjacent neighbors** (up/down/left/right) and displays the output in a table format.
- Containerized the application using **Docker** and deployed to **AWS EC2** with a fully automated **Jenkins CI/CD pipeline** for build and deployment.

CERTIFICATIONS

Generative AI – Oracle

[Certificate Link](#)

ServiceNow CSA, CAD – ServiceNow

TECHNICAL SKILLS

Languages: Java, Python, C

Cloud & DevOps: AWS EC2, Docker, Jenkins, CI/CD Pipelines, Git

Web Technologies: HTML5, CSS3, JavaScript, Node.js, Express.js, REST APIs

Databases: MongoDB (NoSQL), MySQL (SQL)

Platforms & Tools: ServiceNow (CSA, CAD), Linux, Windows

Core Subjects: Data Structures & Algorithms (DSA), Database Management Systems (DBMS), Computer Networks (CN), Object-Oriented Programming (OOP)

EDUCATION

Aditya College of Engineering and Technology

2024 – 2027

Bachelor of Technology (BTech)

CGPA: 8.51 | Percentage: 77%
